Mr. H. F. Wareing  
Radio Bureau  
1747 North 12th Street  
Milwaukee, Wisconsin

Dear Mr. Wareing

Thanks very much for your nice letter of June 20 offering your cooperation in the way of addressing the delegates at the coming WORLD-WIDE RADIO AMATEUR CONVENTION. You can be assured that we appreciate very much your assistance.

Your name was originally submitted for talks on both "Five Meter Equipment" and "Frequency Stability," and those recommending you mentioned that they had heard you give a talk in Milwaukee, I believe, and it was done in a most excellent manner. Since you have indicated that you would not care to talk on the subject of "Five Meter Equipment," that will be quite all right for we have just found out that Jim Millen of the National Company and perhaps Herbert Hoover, Jr. will assist us in this regard.

At the time your name was suggested it was mentioned that you are an authority on "Frequency Stability," and so we have you slated for a talk on this. In this regard you perhaps might also want to touch on the subject of "Electron Coupled Oscillators." We extended an invitation to talk on "Electron Coupled Oscillators" to Lieutenant Jennings B. Dow but it is to be regretted that he can not attend. He has, however, offered his assistance in the way of a loan of slides illustrating a talk on the subject as per the attached copy.

If you wish to incorporate "Electron Coupled Oscillators" along with your talk on "Frequency Stability," let us know immediately and we will have Lieutenant Dow send the material at once direct to you.

The Convention details are shaping up nicely and everything points to a rather gigantic affair. Speakers from all over the country, both east and west coasts, are coming and a program has been outlined that will cover practically every phase of amateur and commercial radio. This you will note from the attached program outline.

Just as soon as you can let us know definitely about attending and addressing the delegates on the subjects mentioned, please do so for with the mass of detail involved we naturally want to get everything arranged at the earliest possible moment.

Yours very truly

WORLD-WIDE RADIO AMATEUR CONVENTION COMMITTEE

W9FQU

P.S. An elaborate forty page souvenir program of the Convention will be issued. In this connection please submit at the earliest possible moment a photograph of yourself suitable for halftone (133 line screen) reproduction together with a brief outline of your radio accomplishments, connections, and date and city in which you were born.
